Hi Dana,

I've added language for acetamiprid, and combined the two keypoint sections. The proposed mitigation has been added as sub-bullets to try and help distinguish them.

I think it looks better, but please let me know what your thoughts are.

Thank you,

Matt

Hi Matt,

Thanks for putting this together and getting it around to the team for review. My main comment is that I'd like to see if we can merge the DRA and PID sections – I think we might be able to streamline it a bit. I think it looked that way when I originally saw it, so there must have been some changes that were incorporated from team review that modified the format a bit. We can check in tomorrow morning as you look to make those edits.

Thanks!
Dana

Importance: High

Hi Dana,

Attached you will find the neonicotinoid PPDC one-pager following team review. I've left one comment for you regarding seed treatments that I hope you can provide some input for.

Please let me know if you have any other questions,

Matt
